Thanks, Marty. This is even simpler than I expected, which is great.

One question: does the language about working hours and non-working days mean we can work extended hours or not? When I have contractors working on a site, we typically work Mon to Sat, 10 hours a day, usually 0700-1700. Is that going to be a problem?

Chris

>>

>> I can provide some quick answers to your questions, though some of the details will need to be worked out.

>>

>> We will place boom across the mouth of the slip while the vessel is at the USACE facility, and EPA will have Global on pump watch to be sure the vessel doesn't sink again. I've got another OSC from my group, Bret Moxley, identified as the point of contact while I'm gone. He'll check on the vessel periodically and be available if anything starts to go wrong that would require Global to come in and do repairs or any work beyond pump watch.

>>

>> We'll have to discuss the details of how to decide that hazmat issues have been addressed, which will be easier once we've had a chance to take a look at things, but I'm sure we can work out an arrangement. And EPA should be available to assist with any unexpected hazmat issues that arise during vessel demolition.

>>>

>>> Good Morning Gentlemen,

>>>

>>>

>>>

>>> It looks like the process is moving forward. The Sheriff's Office, EPA, USACE, Sean Alexander Marine should now start having our own dialogues on how to dispose of this vessel.

>>>

>>>

>>>

>>> This is what I have so far from the US Coast Guard:

>>>

>>>

>>>

>>> \* The Spirit of Sacramento will be raised by tomorrow and stabilized by Diving Global by tomorrow afternoon (at the latest).

>>>

>>> \* The vessel will then be towed to Sausalito's US Army Corp of Engineers by Friday or Saturday.

>>>

>>> \* The vessel will be moored in Sausalito and remained afloat while the US Coast Guard de-fuels the vessel.

>>>

>>> \* The EPA will commence working on removing the haz-mat and other contaminants by mid-October. This job will take approximately 2-3 weeks (at the latest).  
>>>  
>>> \* Once the EPA is done and can assure the vessel is free of contaminants, the vessel will be turned over to Sheriff's Office and Rob de la Cruz for final disposition. That will include towing the boat to Mare Island (Lind Marine) for destruction.  
>>>  
>>>  
>>>  
>>> There are some logistics that need to be worked out in order to minimize any confusion, risks and unforeseen liabilities during this process. Some of those issues are:  
>>>  
>>>  
>>>  
>>> \* How will the vessel be stabilized in Sausalito during the work by the US Coast Guard and EPA?  
>>>  
>>> \* How will the vessel remain stable for tow back to Mare Island?  
>>>  
>>> \* How will the EPA assure the vessel will be transferred free of haz-mat and contaminants?  
>>>  
>>> \* During the disposal by Sean Alexander Marine and Lind Marine, what will happen if further haz-mat is discovered? Will EPA offer support?  
>>>  
>>>  
>>>  
>>> I'd like to have these questions and any other answered by Thursday, October 6th, if possible. Perhaps if we can sit down at the US Army Corp of Engineers on that day....will that work?
